EVOLUTION SHOWER SCREENS AVAILABLE FROM:

# evolution series

For more than 20 years, Pivottech has produced a range of shower enclosures that have set the standard for craftsmanship and value for money. Bathroom design is a fashion business and our design team continue to expand our range of products, meeting the ever-changing needs of our customers and ensuring that Pivottech products are both fashionable and functional. Using the highest quality materials, our systems continue to be an investment in quality and style. Evolution shower enclosures are designed with the versatility to adapt to numerous applications and configurations, combined with the ease of installation and quality of components that our customers rely on. Elegance without compromise – designed simplicity.

## evolution - 90°

The Evolution series features a semi-frameless door for a stylish, spacious feel. The new extrusion profile gives the classic design a contemporary look and makes the enclosure even easier to clean.

## evolution - 45°

45° enclosure allows more flexible use of available space. This configuration allows the placement of vanity and toilet on either side of the screen without compromising the door opening.

## evolution - 90° with panel

The addition of an infill panel allows the Evolution to be enlarged to suit even the largest bathroom, while keeping the door at a convenient size. The semi-frameless door and panel maintain the airy, spacious feel.

# features

## magnetic closing catch

Positive-close magnetic catch ensures the door closes perfectly in line, every time.

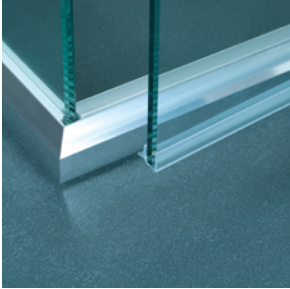

## pivot patch fitting

Elegant and unobtrusive door pivots are colour matched to co-ordinate with the frame. Stainless steel hinge pins are designed to give a lifetime of trouble-free use.

## optional stylish handles

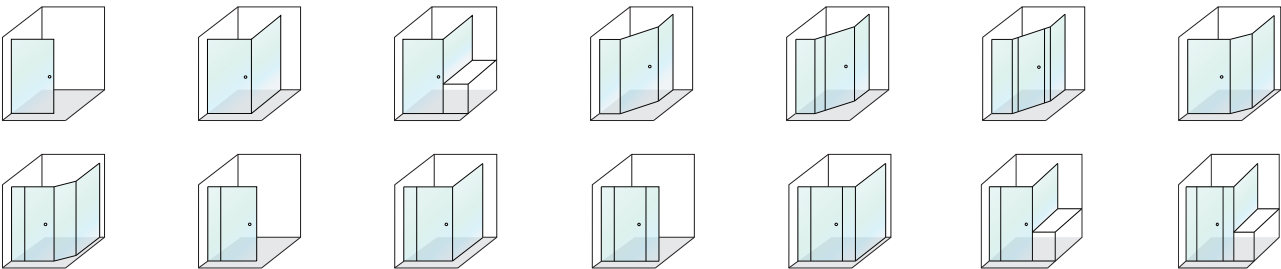

Optional handles offer an even more elegant look to enhance any enclosure. D handle or finger pull available.

## uniquely shaped profile

The integrated Evolution profile directs water back into the shower area for ease of cleaning in a modern slimline frame.
